APPLICATION GUIDE

FOR AUTO, TRUCK AND VAN WINDSHIELDS

ECLIPSE SUN SHADE APPLICATION GUIDE

Contents

QFD Accessories, Inc. makes automatic retracting Eclipse Sun Shades to fit all vehicles on the road today. This application guide includes applications for windshields for autos, trucks, and vans.

Windshields

p. 1 - p. 17

Use of Chart

This application chart is designed to allow you to choose the right shade size for a given auto, truck, or van. Find the vehicle by finding make and model first, then year and body style. Make and model are organized alphabetically. Each vehicle listing has a corresponding shade size listing.

If you do not find the vehicle listed, measure the windshield from the dash to the top of the windshield at about 1/2" from the windshield post. Then call QFD at 1-800-530-8484.

Abbreviations

Body style abbreviations are as follows:

Conv	=	Convertible	Nb	=	Notchback
Cpe	=	Coupe	Pu	=	Pickup
Fb	=	Fastback	Sed	=	Sedan
Hb	=	Hatchback	Util	=	Utility
Lb	=	Liftback	Wag	=	Wagon

Regular Shade vs Cutout for Sensors

Electronic devices wired to the rearview mirror (Sensors) have added some part numbers to the Eclipse line. When it is not easy to close the Eclipse around a sensor, a Cutout is called for. However, when all it takes for easy closure is moving a wire out of the way, a regular shade size is listed in the Guide. This condition is now included in the Instruction Sheet on the back page as a Note under Operation: "If the rearview mirror includes an attached wire that is interfering with easy closure of the shade, adjust the position of the wire to run above and along the post of the rearview mirror (tie down to post if preferable)." If you have any questions regarding Cutout applications (or any applications), call Jack Hays at (719) 635-6287.

Dash Covers

If the vehicle has a dash cover, check fit prior to installation to determine if one size smaller shade is needed. As a rule, carpet-type dash covers require one size smaller.

Specials

The term Special is used for any shade that differs from the standard sizes of 65" x 11" up to 65" x 29" or that requires a cutout, a wide body, or special brackets. Specials need to be ordered by part number. The part numbers for Specials are shown in the chart to the left of the Shade Size column. (Note: the part number for a standard shade is 5 digits, starting with #106 and ending with the shade size; e.g., a 24" is #10624.)

Application Guide on the Internet

For the most current updates to the Guide, please go to the QFD web site: www.qfd.us The Guide also can be downloaded.
